

Operating/assembly instructions for roller board

Thank you very much for choosing a **SPORT-THIEME** product. We want to make sure that you can enjoy this product, so here is some important advice for your safety as well as for the use and maintenance of the equipment. Please read these instructions fully before you assemble and use the equipment.

The ergo roller board is made from sturdy plywood with a clear varnish. For optimum rolling, the roller board is fitted with particularly easy rolling, ball-bearing-mounted swivel castors. The high-quality swivel castors have solid rubber tyres ensuring the board runs smoothly and has a long lifespan.

Please ensure that these roller boards are only used indoors and on smooth floors (there are special roller boards for outdoors and tarmac, e.g. the 'all terrain' roller board, Prod. code 128 6306).

The roller board has additional holes for optional accessories such as the 'fixed ball handles'* and 'towing rope'*.

The ergo roller board is designed for a maximum load of **120 kg** and is only suitable as a piece of indoors sport and leisure equipment.

Make sure your hands do not get into or under the castors. The roller board is only suitable **for its intended use**. Improper use voids the warranty.

The following versions are available:

Roller board with single castors

Prod. code: 128 5404

The bestseller from Sport-Thieme!

The quality roller board for schools, clubs and sport.

Ideal for group games, races, balancing and ball games.

Roller board with double castors

Prod. code: 128 5446

Suitable for soft hall floors!

The double castors increase the contact surface of the wheels. Ideal for group games, races, balancing and ball games.

Prod. code 128 5404; 128 5446; 128 5459;
128 5462; 128 5475

Roller board with protective caps

Prod. code: 128 5459

The protective caps prevent fingers getting into the castors!

Fingers on the floor are gently pushed away from the castors.

Roller board with protective edges

Prod. code: 128 5462

Roller board with protective edges!

Ideal impact protection. When the roller board hits an obstacle, it gently bounces off and thus prevents damage to the roller board, wall, vaulting boxes, wall bars and other objects.

Safety roller board

Prod. code: 128 5475

Increased safety through protective caps and edges

Protective caps – fingers on the floor are gently pushed away from the castors.

Protective edges – ideal impact protection, prevents damage to the roller board and to walls.

Storage trolley*

Prod. code: 131 0102

Fixed ball handles
Prod. code: 127 8604*

Towing rope
Prod. code: 126 0117-3*

Caution: Do not overload the equipment!

Maintenance and care instructions

Instructions:

Carry out a visual check at regular intervals. Due to our continuous quality control of the products, technical changes may occur which may lead to slight deviations in the instructions.

Check at regular intervals that the screw connections are tight. Check the equipment for possible damage and replace worn-out parts. Check the condition of wooden elements as chipping and other signs of wear can result from use. Ensure that moveable parts are free-moving.

We are happy to answer any questions you may have.
