

## Finishing lines – Open Water

### Selected by FINA for major competitions

Official FINA equipment - Finishing lines for open water marathon swimming races.

Visible for the swimmers and for judges and audience, tracking the final 50m of an open water marathon swimming competition.

2 times 50m lines, one yellow and one red, installed parallel to each other, to guide the race last 50m before passing the finish line.

#### Unique qualities:

- Strongly built with stainless steel wire and Classic discs and floats
- Visible colors selected for open water venues
- Designed for minimal water bounce back
- Durability and life span
- May be equipped with built on distance cones for added visibility

#### Product description:

Classic Discs Ø 100mm  
Solid yellow and solid red  
Stainless steel wire with snap hook each end.

Custom lengths, colors and Gold discs (Ø 150mm) possible.
