

Assembly instructions for the chess table (chinese chess) and recreational code 503,503B, 519, 519B, 504, 504B

The assembly of the table begins with finding an even leveled area. We start with sprains concrete elements with metal connectors (photo 1 and photo 2)

foto. 2

We screw the nut M10 . (Only catch, do not tighten tightly!) (Photo 3)

foto 3

Insert the top and screw it with the M10 screw and the nut M10. (photos 4 and 5)

foto 7

We check if the top is level. Tighten all bolts and nuts. Table is heavy and have stable structure, the table does not have to be attached to the ground, however, it has holes in the concrete legs for screwing (no assembly elements for the base in the set)
