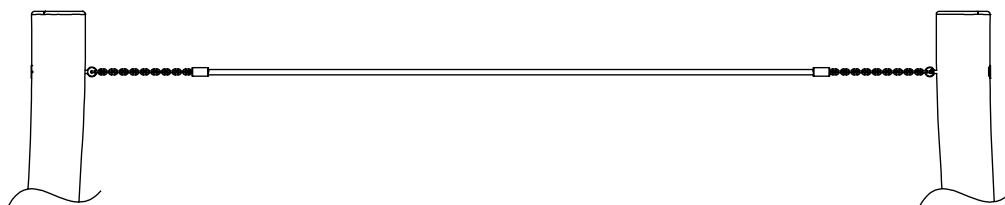

Diagram illustrating the drilling of a hole in the side of a beam. The hole has a diameter of $\varnothing 8.5\text{mm}$. The distance from the edge of the beam to the center of the hole is 20 mm. A callout shows a drill bit with a diameter of $\varnothing 8.5\text{mm}$.

A diagram showing a circular sector with a central angle of 120° . A spring pendulum is attached to the center of the sector. The pendulum consists of a spring and a mass. The mass is positioned on the right boundary of the sector. A dashed line connects the center of the sector to the mass, indicating the equilibrium position. A curved arrow indicates the direction of motion towards the equilibrium position.
