Wave-shaped cut-outs, suitable for connection with Stapelstein Originals with a diameter of 27.5cm. Weight capacity up to 100kg. 0.63kg. For more details see www.pedalo.de	
Special notes - The Stacking Stone Seating Plate Move (hereinafter also referred to as product, item, device or balance stool) turns suitable Stapelstein®* stones into a mobile and height-adjustable stool that can be moved in all directions but is still stable and safe. Dynamic sitting promotes an upright posture and strengthens the back muscles. - Caution! A certain degree of caution and attention is required when using the seating plate as a balance stool (especially during the first few attempts). - The balance stool depends on the user's coordination skills and is therefore intended for ages 3 years and older. Adult supervision is recommended for use by smaller children. - Before each use, please check that the product is not damaged. - Before each use, make sure that the wooden plate rests precisely on the stacking stone and can thus safely fulfill its function as the seat of a movable stool. The maximum weight capacity is 100 kg.		
Important information and warnings - Warning! Not suitable for children under 3 years. Use only under adult supervision. - Caution! Packaging is not part of the item and must be disposed of before use. - Warning! Plastic bags and foils do not belong in the hands of babies and small children – risk of suffocation! Keep out of reach of babies and small children! - Caution! Use the item exclusively for the purposes described in these instructions (or also in other pedalo product information/instructions that may be possibly enclosed with the product and refer to this product). - Replace worn parts immediately with an original spare part. - The product is made of different woods. Among others from natural birch, beech, and multiplex. Deviations in color, structure, grain, or small knots inclusions prove the genuineness of the material and therefore there is no reduction in quality. - Maintenance and care: Can be wiped with a damp cloth. Do not use solvent-based, acidic, or abrasive detergents. Protect item from damp and wet.		
Assembly - No assembly required. The product is delivered ready for use. - For the intended use as a stacking stone seating plate (see illustration below right), the wooden plate is simply attached on one or more stacking stones* (Stapelstein® Originals) previously placed with the opening facing upwards. - For this purpose, the seat plate has cut-outs on the underside that are precisely matched to the waves of the stacking stone edge. They give the plate to sit perfectly on the stacking stone and helps to positioning the seat plate correctly if required. * Stapelstein® Stacking stones are not included in delivery
