

Imagine Suite

Editor Pro- Upgrade

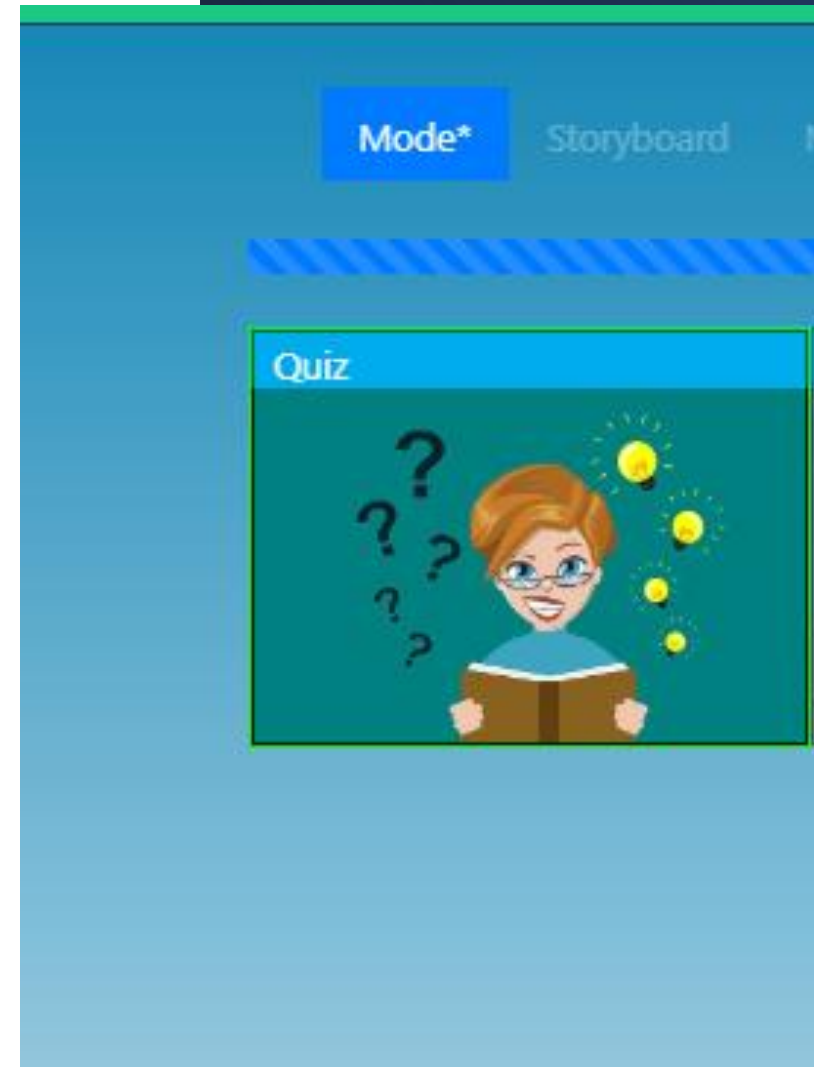

Editor Portal

The Imagine Suite includes a perpetual license to the Standard Editor portal, where you can import your own images, videos, and audio to enhance your content creation. The editor allows you to create interactive content such as image painters, scatters, splats, word searches, and jigsaws.

Upgrade to Editor Pro, you gain access to advanced features of the editor portal, enabling you to create your own quizzes and storyboards. Additionally, Editor Pro provides access to the Measure Outcomes portal and detailed reporting tools giving you insights into the activities that you are providing.

Quiz Creator

Creating quizzes within the Imagine Suite Editor is a straightforward process that enhances your interactive content. Start by selecting the images from the editor's extensive library or import your own. You can then customise the quiz by importing your own images, videos, and audio clips to create engaging and dynamic questions. The editor allows you to design multiple-choice, true/false, and short-answer questions, providing a versatile platform for various types of assessments. You can also set the correct answers and configure instant feedback to guide users through the learning process. With the advanced features available in Editor Pro, you can track user responses and analyse results through the Measure Outcomes portal, giving you valuable insights into user performance and engagement. This comprehensive approach ensures that your quizzes are not only educational but also captivating and informative.

Storyboard Creator

Leverage storyboard mode for an engaging journey. Whether simulating a bustling shopping centre or recreating a cherished childhood book, storyboard mode allows you to craft immersive narratives. Furthermore, infuse your storylines with interactivity to transport yourself and your audience into captivating digital realms, blending nostalgia with cutting-edge experiences.

Measured Outcomes

The SENSE Range of Interactive Projector offers a wealth of benefits by providing measurable outcomes through its advanced tracking capabilities. To begin, simply seat a user or group of users at the start of a session. Subsequently, The Imagine Suite will prompt you to rate how they are feeling. During the session, the Well-Being Suite or Imagine Suite will discreetly monitor various outcomes. Consequently, you can generate detailed reports over a selected date range.

Furth more, by monitoring a variety of metrics, the projection delivers comprehensive well-being scores. This, in turn, allows users to gain valuable insights into their physical, mental and emotional health, thereby promoting a balanced and holistic approach to well-being.

You will be provided with a username and password to access your personalized portal.
