TECHNICAL SPECIFICATIONS

Track is constructed of high density Polyethylene foam which offers a high degree of shock absorption, the 5mm thick carpet is heat laminated to the foam to prevent separation.

Available in 2 lengths:

- **Ref. 6165** = 14 x 2 m (l x w). Thickness = 4 cm
Rolled-up size: $\varnothing = 100$ cm

- **Ref. 6166** = 7 x 2 m (l x w). Thickness = 4 cm
Rolled-up size: $\varnothing = 75$ cm

The track offers a stable and uniform surface for creating multipurpose gymnastic areas by joining tracks using velcro (available optionally, please contact us).

Recommended use:

To be used only on solid floor base – the track should not be used on sprung floor bases to ensure longer life.
