--	--------------	------------------	--------------------------------	---------------------	--------------------------------------

## COMPLETE TRAPEZIUM MODULE & TRICKING STEP

- ❑ They are especially suitable for working on cat leaps.
- ❑ The bevelled edges also make it easier to learn movements where the push-off is directly on the obstacle (360, wall flip, tic-tac, etc.).
- ❑ These components are securely joined together with self-gripping strips but can also be used separately to create different kinds of obstacles.
- ❑ The trapezium module and the Tricking step module (**Ref. 925**) can be combined to create an obstacle measuring 1.80 m in height.
- ❑ These modules are distinct and can be used separately.
- ❑ Colour available: ● Two-tone dark Blue and Black
