

321 Gymleco Chest Press, Seated

300 series, Selectorized machines

The nice feeling makes this Gymleco chest press a definite favorite for the trainers. The movement becomes stable and comfortable thanks to the natural course of movement.

The machine is equipped with a foot pedal that allows you to start in the middle of the exercise, which goes from a wide starting position, via an ergonomic V-shaped movement path until the handles meet in the final position.

This movement provides effective activation of the chest muscles.

- Standard frame color: Black
- Standard cushion color: Black / Red
- Weight block: 100 kg
- Larger weight block (optional)
- Inward long V-shaped movement.

Lenght	Width	Height	Weight
139 cm	137 cm	149 cm	224 kg

No maintenance needs.
