

Spring Cover – for tension spring

Official FINA equipment

Used for competition and training to cover the tension spring.

Safe and comfortable for user. Extends wave reduction to where it is most needed.

Unique qualities:

- Extends wave control all the way to the wall
- Secures affixing of goal lines to goal in water polo and lane line to wall anchor in swimming
- Covers the tension spring on the lane line and water polo lines
- Protects swimmer/water polo player from the open tension spring
- Easy to maintain and use
