

TurnBoard Elite

Art. No. 1310010

Another smart training equipment from Malmsten. Optimizes individual lane use; divides one lane into two or more sections. This is an easy, smart and cost-efficient way to transform your pool into a multi-activity center.

- Used for swim schools to easily divide space between groups
- Used for swim training when practicing turns

Two different product sizes are available.

Easily maneuvered by two persons, when affixing onto existing Malmsten Racing Lane Lines, or bringing the TurnBoard Elite back up onto the pool deck where it can be stored on a trolley or on a wall. The TurnBoard Elite is easily moved on pool deck as it is equipped with two rolling castors.

It is made for the tough pool environment and every day handling.
