

LevelPass

Next Level Challenge - Next Level Functionality

The module in action:

The LevelPass is conquered by carefully bracing with hands and feet against opposite arches, while step-by-step movement on the anti-slip surface requires core strength and coordination. Thanks to its bridge-like design, the passage underneath remains open, allowing boat passage while providing direct water access to closed areas.

Your benefits:

With the LevelPass, any Wibit park gains an exceptionally challenging obstacle that encourages guests to make repeated attempts. The design represents a breakthrough innovation: boats can pass underneath the structure, making enclosed modules directly accessible from the water. This unique feature facilitates maintenance and increases park safety by enabling faster access to central areas.

Features:

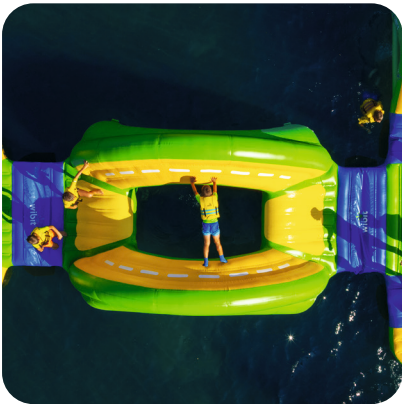

No					
item no.	min. water depth	dimensions l x w x h	user capacity	inflation time	includes
30196	6'11" 2,1 m	19'10" x 11'9" x 7'10" 6 x 3,5 x 2,4 m	6	12 min*	1x safety flap, 2x connector strap

✔ Unique feature

✔ High challenge

✔ Dual function

* Estimated (depends on manpower and location)
