Size

Height above ground..... from 3 to 10 m
 Ø posts from 50 to 114 mm
 Depth of sealing..... from 500 to 1000 mm

Technical description

Standard equipment:

- 4 types of posts: end post, corner and retention, wind-bracing with struts and intermediate
- Plastic-coated sendzimir steel tubular posts from 3 to 10 m
- Posts diameter adapted to the area, the net mesh, the height above ground level and the spacing between posts (please consult us)
- Direct sealing, depth differs depending on the height of the post above ground
- Wind bracing + struts (Ø 50 mm) for 9 and 10 m heights

Optional equipment:

- Collars for adaptation to existing Ø 50 to 114 mm posts (stiffener support, pulley support, fixture for struts)
- Accessories for the ball-stop installation (hooks, rings, cables, stiffeners, etc.)
- Option to have the bottom part with either welded mesh panels or single twist wire mesh
- Custom-made mesh from Ø 25 mm to 145 mm
- Windbreak / screenbreak
