

# How to inflate Omnikin Ultra 24"

1 Insert the latex bladder into the nylon cover leaving the neck out for about 15 cm (5 in).

2 Place the bladder's neck around the inflating device and hold it tight.

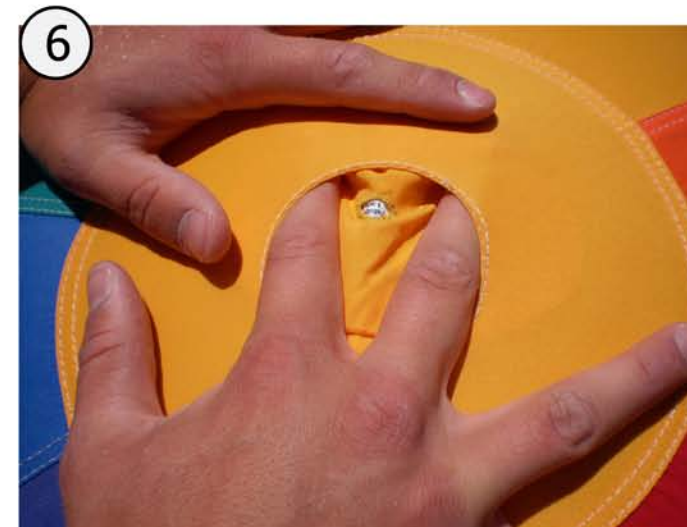

3 Start inflating the bladder.

4 Twist the bladder's neck three or four times on itself. Create a loop with the string all around the neck. Make sure that the top cover is outside of the ball.

5 Put the neck of the bladder and the string inside the ball.

6 Finally put the top cover inside of the ball.
